

Elastic Mounts - Elastic Mount Beca/Egabek - Egabek-100

Elastic Mounts.

A wide range of elastic mounts for a large number of different applications.

Elastic Mount Beca/Egabek.

The elastic mounts BECA / EGABEK are made up of a rubber crown with two metallic plates adhering to it. They have both large axial and radial elasticity, practically the same. Available in different sizes and hardnesses. They can be delivered with a superior "cup".
